

# **\*\*Monica Ros School Summer Camp\*\***

## **June 29 – July 31, 2020**

**8:30 AM – 2:00 PM Camp Day- STAGGERED SCHEDULE\***

783 McNell Road, Ojai, CA 93023

[www.monicaros.org](http://www.monicaros.org) | 805-646-8184 | [office@monicaros.org](mailto:office@monicaros.org)

Monica Ros School is excited to offer five weeks of Summer Camp to all Monica Ros students who are three years old and potty-independent, up through those entering 4<sup>th</sup> grade this fall. Campers will be separated by age to allow for the most secure and comfortable range of exploration and safety for them. Campers pack a snack/lunch and water bottle from home, sunscreen is applied at home before camp and can be reapplied at lunch per parent instructions. Surfaces and toys will be disinfected multiple times per day and all precautions will be made to stay healthy. Sign Ups are by email only and timestamped for limited spots!

### **“Dinosaurs and Beyond”**

**First Week: June 29- July 3**

Travel deep into the past to the time of the dinosaurs! Students will learn about their habits, environment and world. What did America look like so very very long ago? Our first week will jump right in with stories, drawings and crafts to go beyond!

### **“Artistic Adventures”**

**Second Week: July 6 - July 10**

Get ready to get messy! Please dress your child accordingly, parents. This is the week for your children to paint, sculpt and design with unabashed creativity. Prepare yourselves for a bag full of creations by the end of these five days. We will have an adventure!

### **“On the GO!”**

**Third Week: July 13 - July 17**

How do we get from point A to point B? Will we go fast, slow, high or low? This is a week for our students to move! Travel by horses, trains, jets, spaceships, submarine or our own propulsion. We will investigate everything from the modern to the Stone Age that helps us human GO!

### **“S.T.E.A.M.”**

**Fourth Week: July 20-24**

Tackling creativity in our modern world. Science, Technology, Engineering, Arts and Math. We will host a variety of STEAM projects, games and challenges. Activities to stimulate the mind and spark curiosity. Fun for all ages and appealing to the budding mathematician in us all.

### **“Storytime Journeys”**

**Fifth Week: July 27-31**

How do we tell a tale? How does one make a story special? We will take a deep dive into literature and discover why we love stories so much. Learn about genres, authors, how books are made and why books are the best! Children will try creative storytelling and together we will go on a journey.
